

INSURANCE AGENTS AND STOCKBROKERS COVERAGE FLOWCHART

Every business is different, but given the realities of your industry, we recommend General Liability and Errors and Omissions Insurance. General Liability Insurance offers an array of liability coverage and address lawsuits over third-party injuries on company property, property damage, and copyright or trademark infringement. Errors and Omissions Insurance can address claims of negligence, breached contracts, and other professional oversights. You might qualify for a Business Owner's Policy, which bundles GL and Commercial Property Insurance together at a reduced rate.

Follow the chart to learn which other policies your insurance or stock brokerage may need.
